Aspiring software developer with a strong foundation in Tailwind CSS, React.js and front-end development

EDUCATION

Tribhuvan UNIVERSITY

Bachelor of Science in Computer Science and Information Technology (Bsc Csit)

Amrit Campus

14 March 2022-Present

SKILLS

- **Front-End Technologies:** React.js, HTML5, CSS3, JavaScript, Tailwind Css
- **Tools & Platforms:** Git, Visual Studio Code, Figma, NPM
- **Others:** Responsive web design, Debugging, Version Control
- Wordpress

EXPERIENCE

June 2023 – Present

Since June 2023, I have been actively learning and developing my skills as a frontend developer. My focus has been on building user-friendly and visually appealing web applications. During this period, I have gained hands-on experience with various frontend technologies and completed several small projects.

PROJECTS

1. **Portfolio Website:** Design and developed a personal portfolio website to showcase my work and skills. Responsive design with a unique presentation of social icons based on device (mobile vs. laptop). Tailored styling with Tailwind CSS for quick design iteration and a consistent look and feel. [demo: <https://rajushrestha.netlify.app/>]
2. **Todo App:** Created a simple yet functional todo list application with feature like task addition, deletion, edit. Focused on clean code and user-friendly design. [demo: <https://02todo.netlify.app/>]
3. **Weather App:** Build a weather forecasting application using public API. Display current time weather information based on user input. [code: https://github.com/rajushrestha1/Wheather_App]
